

ALEX MORGAN

alex.morgan@example.com | +1 555-010-2468 | Bengaluru, India

PROFESSIONAL SUMMARY

Software Development Engineer with a strong foundation in Python, Java, data structures, and backend application development. Enjoys solving programming problems and building reliable, maintainable software.

TECHNICAL SKILLS

Programming: Python, Java, SQL

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Software: REST APIs, Git, Linux, Unit Testing, Debugging

Other: Problem Solving, Team Collaboration, Agile Development

EXPERIENCE

Software Engineering Intern | ExampleTech Labs | May 2025 – Aug 2025

- Built Python scripts to automate data validation, reducing repetitive manual checks in a sample internal workflow.
- Implemented and tested REST API endpoints with guidance from senior engineers.
- Wrote unit tests, investigated bugs, and documented changes for code reviews.

PROJECTS

Task Tracker API | Python, FastAPI, SQLite

- Developed a REST API for task creation, updates, and status tracking.
- Added input validation and basic error handling; documented endpoints for testing.

Book Recommendation Prototype | Python, Pandas

- Created a small prototype that recommends books from user-selected categories.
- Cleaned sample data and compared simple recommendation approaches.

EDUCATION

B.Tech in Computer Science | Example Institute of Technology | 2022 – 2026

Relevant coursework: Data Structures, Algorithms, Database Systems, Software Engineering.

ADDITIONAL INFORMATION

Achievements: Solved 120+ programming practice problems; participated in a university-level coding hackathon.

Additional: Open to entry-level software engineering roles; interested in scalable systems and backend development.
